

SECURITY ACCESS TO THE CHEMISTRY X-RAY LABORATORY

Security Protocols for Access to the Chemistry Addition and X-ray Laboratory for Non-Chemistry personnel. Outside Access to room 2407, Chemistry Addition.

1. **Swipe your card** to enter the southwest door (access card) of the Chemistry Addition ('86 wing).
2. Proceed directly to the elevator
3. Take the elevator to the 4th floor
4. Walk directly down the hall to room 2407. **Swipe your card** and enter the room.
5. You have 10 minutes to proceed from the outside entry door to room 2407. We will be periodically monitoring the time it takes you to proceed from the building door to room 2407. Any inconsistencies detected will lead to a cancellation of your access privileges.

6. We expect you to follow the most direct path to access room 2407. You should not wonder around in the building. You are only allowed to be on the ground floor or 4th floor of the 1986 wing. You should not enter any other rooms than 2407 (except the restrooms).
7. Do not enter any other section of the Chemistry Complex.
8. Do not allow others access to the Chemistry building by sharing your access card or by letting other individuals in.
9. Your access will be disabled August 15th of each calendar year. You may enable access by submitting a written request to xray@tamu.edu.
10. Please report to xray@tamu.edu the loss of your access card, or if you have left Texas A&M University
11. Your failure to abide by these access rules will lead to a cancellation of your access privileges.

Sign and return

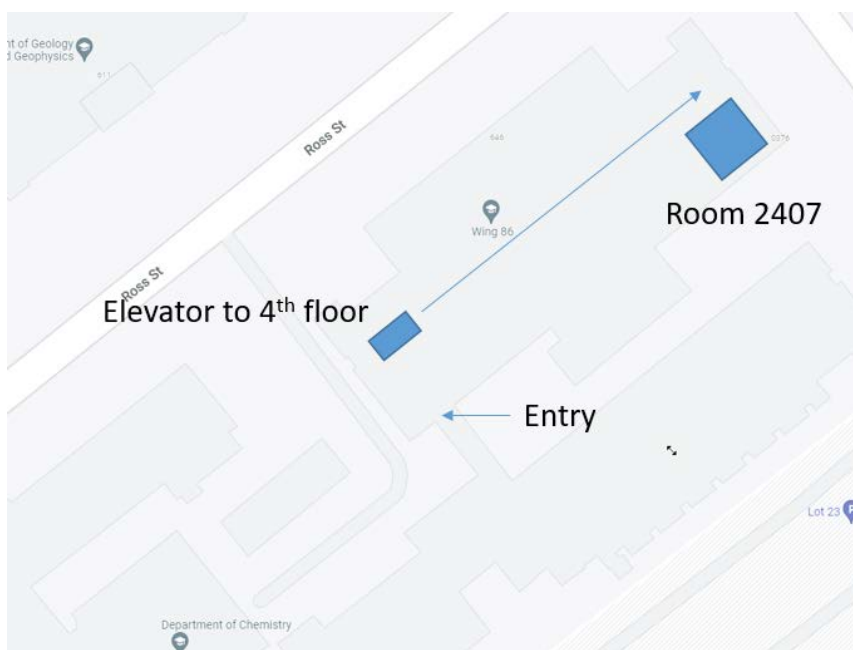

I acknowledge that I will follow the security protocols listed above.
